SUMMARY

Full Stack Developer with hands-on experience building scalable web applications using modern technologies including Next.js, Express.js, and Preact. Skilled in blockchain integration, specializing in Cardano transaction management, voting systems, and staking mechanisms through Lucide Evolution. Proven leadership as a React.js mentor and team lead at the Addis Ababa Science and Technology University's Google Developer Student Club (GDSC). Adept at delivering high-quality outsourced solutions for digital signing and deal management platforms, leveraging Go, Redis, and PDF manipulation libraries. Passionate about clean code, performance optimization, and driving innovation in decentralized and web technologies.

EXPERIENCE

FullStack Developer

Endubis

May 2023 - Present, Wolo Sefer, Addis Ababa

- Built and deployed robust web applications with Next.js, integrating full frontend and backend functionalities using Node.js.
- Developed and integrated custodial wallets for Cardano and TON, supporting wallet creation, transactions, vote delegation, and staking.
- Integrated Blockfrost API and Lucid for seamless Cardano blockchain interactions.
- Engineered secure, scalable Node.js APIs and connected them to a dynamic Next.js frontend.
- Managed complete blockchain workflows from wallet management to transaction signing.
- Implemented end-to-end authentication systems to ensure secure platform access and operations.

Fullstack Developer

TaptoSign

April 2025 - June 2025, America

- Developed full-stack applications using Preact for the frontend and Golang for backend services.
- Integrated Redis for caching and session management.
- Engineered PDF manipulation features by integrating compiled pdf-lib via Golang subprocess executions.
- Implemented document signing, OCR training workflows, and PDF operations using a hybrid of Node.js compiled tools and Golang services.
- Collaborated on secure, scalable digital signing and contract management solutions.

React Mentor and Team Leader

GDSC

January 2023 - June 2024, Addis Ababa

- Mentored developers in building React.js projects and improving code quality.
- Led workshops, coding sessions, and peer learning initiatives.
- Conducted code reviews and provided feedback on best practices.
- Guided teams on project structure, state management, and UI/UX.
- Promoted collaboration through pair programming and task planning.
- Fostered a supportive, growth-focused tech community.

EDUCATION

Bachelor in Software Engineering

Addis Ababa Science and Technology University • Addis Ababa, Ethiopia • 2025 • 3.93

SKILLS

Frontend: HTML, CSS, TailwindCSS, React.js, Next.js, Preact

Backend: Node.js, Express.js, Nest.js, Go (Golang)

Databases: MongoDB, PostgreSQL

ORMs: Mongoose, Prisma

Realtime: Socket.io, Pusher

API Architecture: REST, GraphQL

Mobile App: React Native (with Expo)

Other Tools: Redis, PDF manipulation libraries, OCR tools

አዲስ አበባ ሳይንስና ቴክኖሎጂ ዩኒቨርሲቲ
